

In Closing Page

In closing, dear Stewart and dear Ecuadorian business partner located in Manta, I would like to please remind us that success with a new record label and company based on new freedom songs for people around the world only comes to those who appreciate and believe in hard work and the importance of being earnest, to borrow a phrase from Oscar Wilde. It is with a whole lotta heart, possessing a rare and forthright work ethic, and our all finding ourselves in tandem with opportunity do we have the chance to know one another, to respect each other, and to qualify to earn money so that we may send the revenue to people who need it so very much in poor countries.

The capital that breaths life into CUENCA RECORDINGS and its initial 4 projects sited in the START-UP PROJECTS section of this presentation has 2 phases. The first phase of capitalization, PHASE I, launches CUENCA RECORDINGS and facilitates the recording of the basic tracks of the 12 new original freedom songs. Actually Robert has already begun the recording of the songs at EL TONO STUDIOS in Cuenca. However, PHASE I capital coming from Stewart and partner is needed to do the job right. Now . . . PHASE II is when and where we work with M. Peter Sirico, President, of CITATION GLOBAL PROJECT FUNDING. I have known Peter for years and have come to know he is fully honorable and trustworthy. He will consummate a deal with a venture capitalist to guarantee our getting funded for international operations. Remember please, we already have 4 attorneys signed on to our music business projects per the link with the title "OUR BEGINNINGS" at the INDEX page at the section called START-UP PROJECTS. They, the attorneys stand ready for assignments upon receiving retainer fees. The big question is how much money is required for PHASE I? Let us talk of this subject. Please contact me, Robert. I would be delighted to explain clearly PHASE I and PHASE II.

When I was Vice President in charge of bank owned properties for GREAT AMERICAN REAL ESTATE TEAM of Danville, California, U. S. of A., clients such as CITICORP MORTGAGE of St. Louis, BANK OF AMERICA of San Francisco, and FEDERAL DEPOSIT INSURANCE CORPORATION all endowed me with impeccable trust as I handled millions upon millions of dollars for these companies in closing deals for them. I am still the dependable business professional who rolls sleeves up and gets things done. You will always feel good in knowing I am a good guy as we build and grow with CUENCA RECORDINGS together.

At some point in time after we achieve wonderful results from the 4 initial music projects, formidable and important as they actually are, perhaps we can explore the possibility of recording Stewart singing! That is if he feels like doing so. He is an absolute genius in conveying tongue and cheek humor. I don't know if he is serious or not when he says he wants to some singing when we talk. But, if he wants, we can produce songs by Stewart. I can easily see Janet and Stewart during podcasts offering online songs of inspiration to people from EXPANSIONS. Talk to me. Yes, talk with me about all this. Thank you. Please email me. Thanks again. Love, Robert Aug. 22, 2021
